### **Reasons for Allowance**

1. Examiner has reviewed and considered Applicants amendments as indicated in Applicant's response dated 05/02/06 and per Applicant's amendments claims 2 – 28, are now in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least the limitations of:

"...accessing data stored in said at least one reference file using said first set of file information, and data stored in said at least one source file using said second set of file information; obtaining data analysis criteria for analyzing said data stored in said at least one reference file against said data stored in said at least one source file, the data analysis criteria includes compatibility with an underlying platform defined by at least one of the reference file on which the data to be executed; and displaying results of said analyzing to a user via a data analysis interface, wherein the results include a conformance warning if an incompatibility is detected with the underlying platform", and as best illustrated by figure 8, in such a manner as recited in independent claims 2, 11 and 20.

Therefore, all claims 2 – 28 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
